

## READING COMPREHENSION WORKSHEET

Read the blog post. Then answer the questions.

### “DISCOVERING GECKOS”

Click the link to access the blog from a browser on your device: [Discovering Geckos](#)

1) What is the difference in diurnal and nocturnal geckos?

A diurnal gecko is active in the day, a nocturnal gecko is active at night.

2) What kinds of items would you need to give a gecko a well-fed stress-free home?

Geckos are climbers so they need an enclosure in which they cannot climb out. They need insects, especially crickets and grasshoppers to eat. Geckos are stressed out if handled too frequently.
